Please amend Claims 1, 8, 13, and 22 as set forth below.

1. (Currently Amended) A method for reformatting a previously formatted portion of document text comprising the steps of:

determining a sample of formats comprising a plurality of formats from a format set, the format set including a plurality of at least one of font sets and color sets;

identifying the portion of text within the document to be reformatted; and

for each format included in the sample of formats, reformatting the portion of text with the format and <u>simultaneously</u> displaying the reformatted portion of text <u>reformatted</u> in each of the <u>formats in the sample of formats</u> in a live preview window <u>such that the user is able to visually compare how the portion of text will appear in each of the formats</u>.

- 2. (Previously Presented) A computer readable medium having stored thereon computer executable instructions for performing the steps of claim 1.
- 3. (Previously Presented) The method of claim 1, further comprising the steps of determining the format set based on user selection of a color set and a font set.
- 4. (Original) The method of claim 3, wherein the color set comprises a plurality of colors defining a color scheme, the colors being pre-selected by a trained designer.
- 5. (Original) The method of claim 3, wherein the font set comprises a plurality of fonts defining a font theme, each font having a font name and a font size, the fonts being pre-selected by a trained designer.
- 6. (Original) The method of claim 1, wherein each format comprises a format font name, a format font color and a format font size.
- 7. (Original) The method of claim 1, wherein the live preview window comprises a floating window that hovers above the document.
 - 8. (Currently Amended) The method of claim 1, further comprising the steps of: receiving a command for adding a custom format to the sample of formats; in response to the command, adding the custom format to the sample of formats; and reformatting the portion of text with the custom format; and displaying the reformatted portion of text in the live preview window.
